

American Academy of Neurology Foundation 2011 Practice Research Training Fellowship

Grantor: American Academy of Neurology Foundation

Closes: 10/1/2010

Maximum: \$130,000.00

American Academy of Neurology Foundation 2011 Practice Research Training Fellowship

Application deadline: October 1, 2010

The American Academy of Neurology (AAN) Foundation is pleased to announce one two-year fellowship to support training in clinical practice research, which is defined as "clinical research that evaluates translation of evidence into best clinical practice." This may include evaluation of health services, quality of care, implementation of proven therapies, physician performance, or patient adherence. The fellowship is intended to create unique training opportunities, previously difficult to access for neurologists. The fellowship is supported by the AAN and the AAN Foundation.

The fellowship will consist of a commitment of \$55,000 per year for two years, plus \$10,000 per year for tuition to support formal education in clinical research methodology at the applicant's institution or elsewhere.

Supplementation of the stipend with other grants or by the fellowship institution is permissible, but fellows may not accept other fellowships, similar awards, or have another source of support for more than 50 percent of their research salary while holding an AAN Foundation Practice Research Training Fellowship. Only direct costs will be funded by this award.
