GRAMMY Foundation Grant Program: Scientific Research Projects

A letter of inquiry is required before submission of a full application. Inquiries must be received by no later than Oct. 1. If the project is recommended for further consideration, the applicant will be invited to submit a full application in early November. Full applications will be due within approximately four weeks of notification and grant awards will be announced in March 2011.

Scientific Research Projects: \$20,000 Maximum Award

The GRAMMY Foundation Grant Program awards grants to organizations and individuals to support research on the impact of music on the human condition. Examples might include the study of the effects of music on mood, cognition and healing, as well as the medical and occupational well-being of music professionals and the creative process underlying music. Priority is given to projects with strong methodological design as well those addressing an important research question.

Scientific Research Project Grant General Guidelines

This initial approach includes the information listed below:

1. Project contact and overview
2. A brief description of the project, including but not limited to the following items:
 - * Research question
 - * Methodology outline (number of subjects, control groups, etc.)
 - * Impact/application of research
 - * Existing project partners and/or financial support, if any
3. Brief biographies of key personnel

The GRAMMY Foundation Grant Program awards grants to organizations and individuals to support efforts that advance research and implementation of original scientific research projects related to the impact of music on the human condition, such as the links between music study and early childhood development, the effects of music therapy and the medical and occupational well being of music professionals.
