

Susan S. Spencer Clinical Research Training Fellowship in Epilepsy

Grantor: American Academy of Neurology Foundation/American Epilepsy Society/Epilepsy Foundation

Closes: 10/1/2010

Maximum: \$130,000.00

Susan S. Spencer Clinical Research Training Fellowship in Epilepsy

The fellowship is supported by the AAN Foundation, the American Epilepsy Society, and the Epilepsy Foundation.

Each fellowship will consist of a commitment of \$55,000 per year for two years, plus \$10,000 per year for tuition to support formal education in clinical research methodology at the applicant's institution or elsewhere.

Supplementation of the stipend with other grants or by the fellowship institution is permissible, but fellows may not accept other fellowships, similar awards, or have another source of support for more than 50 percent of their research salary while holding an AAN Foundation Clinical Research Training Fellowship.

AAN fellowships give researchers more than financial backing—by providing time for research, they are an essential springboard to academic appointments, institutional and NIH career development awards.

All applications and supporting materials must be received by October 1, 2010.

Notification of recipients: January 2011.

All materials must be submitted online. Apply now at www.aan.com/view/CRTF
