

Society of Toxicology Syngenta Fellowship Award in Human Health Applications of New Technologies

Grantor: Society of Toxicology

Closes: 10/9/2010

Maximum: \$15,000.00

Society of Toxicology Syngenta Fellowship Award in Human Health Applications of New Technologies

The Syngenta Fellowship Award in Human Health Applications of New Technologies is presented to either a third year (or later) graduate student or a postdoctoral trainee. The funding (\$15,000) is to support mode-of-action research aimed at characterizing dose-dependent effects of xenobiotics on mammalian systems in such a way that the causal sequence of key events underlying toxicity is elucidated. The work should permit a quantitative basis for extrapolation of the results from animal bioassays or animal models (in silico, in vitro) to humans at relevant human doses. The awardee will receive funding to travel to the SOT Annual Meeting to accept the award and for travel to a Syngenta facility to present the results. This is a one year, non-renewable award.

The award consists of a plaque, fellowship funds, travel to the SOT meeting to accept the award, and travel to a Syngenta site to present the results.

Criteria for award:

* Third year (or later) graduate student or postdoctoral trainee employed by academic institution, federal/national laboratory, or research institute

* Applicant is member of the Society, or membership is pending at application deadline. Does not have to be a member (if not a member, awardee will apply before the fellowship is conferred).

Items needed in the application:

1. Application form, which includes:

A. Budget

B. Brief project description

C. Candidates to articulate how their work provides data that will permit a quantitative basis for extrapolation of the results from animal studies to human at relevant human doses.

2. Graduate transcripts

3. Copies of up to three of the applicant's publications or abstracts if available.

Apply by downloading application files from the SOT Web site, completing, and uploading the files to the SOT Awards page.

4. Reference form and letter from research director

5. Reference form and second letter of reference

6. Reference form and third letter of reference

Letters of reference are e-mailed directly by the writer to sotadmin@toxicology.org.

Mail a hard copy of the signed application form to:
