

Multiple Sclerosis Center Quality of Life Grants

Grantor: Multiple Sclerosis Foundation

Closes: 11/1/2010

Maximum: \$40,000.00

Multiple Sclerosis Center Quality of Life Grants

Since 1996, the Multiple Sclerosis Foundation (MSF) has awarded grants and endowments to universities, MS centers, and other nonprofit organizations to actively promote quality of life and create a brighter tomorrow for those living with MS. MS centers and nonprofit organizations, with a physical presence in the United States, in need of expanding their programs and services are also eligible for financial assistance from the MSF. Grants are available for implementing or expanding MS Day Programs, diagnostic services, rehabilitation services, support services, social services, education and outreach, and medical care.

Applications are accepted beginning September 1st of each year. Applications must be postmarked between September 1st and November 1st to be eligible for funding.

Eligibility:

- • New and existing centers with a physical presence in the United States.
- • Centers serving twenty-five or more MS patients.

Priority will be given to efforts that:

- • Address unmet needs
- • Enhance or expand current services
- • Use creative and innovative approaches to achieve positive outcomes
- • Fill gaps in current services

Areas not funded:

- • Grants for research
- • Grants to individuals
- • Grants for religious purposes
- • Grants for items covered under existing MSF programs

Size and types of grants:

• Funding decisions will be based on the type and scope of the program. Due to the wide variety of program designs expected, varying amounts of funding will be provided. Generally, the MSF funds programs in the range of \$5,000 to \$40,000.

For further information on the MS Center Quality of Life grant, call Alan Segaloff, Executive Director at 1-800-225-6495.
