

Fellowships at the Petrie-Flom Center for Health Law Policy, Biotechnology, and Bioethics at Harvard Law School

Grantor: Petrie-Flom Center for Health Law Policy, Biotechnology, and Bioethics at Harvard Law School

Closes: 11/12/2010

Maximum: \$120,000.00

Fellowships at the Petrie-Flom Center for Health Law Policy, Biotechnology, and Bioethics at Harvard Law School

This is a two year fellowship paying \$60,000 per year for persons who already have a graduate degree in law or some other discipline, and are interested in doing original academic work in the Center's fields of health law policy, biotechnology or bioethics. Academic fellows dedicate themselves full-time to their research, are given research budgets, and have no teaching obligations. This fellowship has most frequently been used to prepare aspiring scholars for the entry-level market for law professors, but is also available to others wishing to do original academic work relevant to the Center's fields.

How To Apply

Applicants must hold an advanced degree in a discipline relating to health law, policy, economics or bioethics. The Center particularly encourages applications from those who intend to pursue careers as law professors, but will consider any applicant who demonstrates an interest and ability to produce outstanding scholarship concerning health or the health care system during the term of the fellowship. Please refer to the current Call for Applications for further information on eligibility and application requirements: <http://www.law.harvard.edu/programs/petrie-flom/RSite/fellowship/pdf/CFA2011.pdf>.

Applications will be accepted from September 1, 2010 through November 12, 2010. For specific inquiries, contact us by email.
