

American Physiological Society Juan Carlos Romero and Water & Electrolyte Homeostasis Section Postdoctoral Research Recognition Award

Grantor: American Physiological Society

Closes: 11/14/2010

Maximum: \$500.00

American Physiological Society Juan Carlos Romero and Water & Electrolyte Homeostasis Section Postdoctoral Research Recognition Award

The Juan Carlos Romero and Water & Electrolyte Homeostasis Section Postdoctoral Research Recognition Award (\$500 plus reimbursement of the advance registration fee) provides support for travel expenses for junior investigators to attend the annual Experimental Biology Meeting. To be eligible, the investigator must be a postdoctoral fellow. Applicants must be first author on an abstract submitted to an APS Water & Electrolyte Homeostasis Section topic category (tbd) at the EB meeting. The Section Steering Awards Committee will judge the abstracts and name 3 finalists who agree to travel to EB and make an oral presentation in a WEH sponsored session. All finalists will receive \$500 and reimbursement of the annual meeting advance registration fee. Finalists will be judged on the presentation, and one fellow will receive the Juan Carlos Romero Research Recognition Award (an additional \$500). Finalists will be recognized and the awardees will be named at the Water and Electrolyte Homeostasis Section Luncheon and Business Meeting at the EB meeting. Awardees must attend the Experimental Biology meeting, give an oral presentation, and must provide a copy of their submitted abstract in order to collect the cash prize.

All application materials must be submitted by November 14, 2010.
