

Conference Student Scholarships: Evolving Approaches to Early Stage Drug Discovery

Grantor: Keystone Symposia

Closes: 12/2/2010

Maximum: \$1,000.00

Conference Student Scholarships: Evolving Approaches to Early Stage Drug Discovery

Scholarship Deadline: December 2, 2010 (Midnight US Mountain Standard Time)

This meeting will cover multiple aspects of the challenges and opportunities facing drug discovery scientists. These challenges include: 1) diverse approaches to early stage discovery in a resource constrained environment, 2) evolution of preclinical drug discovery in academia, 3) evolution of drug leads/target validation from the NIH (MLPCN), 4) funding early stage/risky programs, 5) external licensing of programs and 6) advances in biomarkers/imaging to enable target selection and rapid go/no go decisions. The meeting goals are to bring together experts in all of these areas, present findings/opinions and initiate dialog on these topics. This would be the first meeting to bring together drug discovery scientists from big Pharma, biotech, academia, the MLPCN and Foundations – each with unique missions and approaches and share their respective experiences.

Keystone Symposia is offering scholarships to students and post-docs this conference season. These scholarships, of up to \$1000 each, are to be used to help defray the expenses associated with conference attendance, including air (on a U.S. air carrier), ground transportation and lodging costs. Receipts will be required to receive reimbursement.

Abstracts submitted for poster presentation will be used as the basis for awarding the scholarships. Conference organizers will select the scholarship recipients based on the quality of science of the abstract and the relevance of the abstract to the conference topic. Only one application per abstract is accepted.
