

## **Association for the Advancement of Medical Instrumentation/GE Healthcare BMET of the Year Award**

**Grantor:** Association for the Advancement of Medical Instrumentation/GE Healthcare

**Closes:** 3/15/2010

**Maximum:** \$1,500.00

Association for the Advancement of Medical Instrumentation/GE Healthcare BMET of the Year Award

The AAMI/GE Healthcare BMET of the Year Award is given to a biomedical equipment technician to recognize individual dedication, achievement, and excellence in the field of biomedical equipment technology.

Candidates must demonstrate:

- \* Employment in the biomedical field.
- \* Achievement and excellence through specific contributions to the profession, and
- \* Certification as a BMET or clear evidence the committee finds compelling relative to similar competencies — e.g. appears to meet the eligibility requirements for certification as a BMET.

Candidates should demonstrate:

- \* Active participation and leadership in local society, or similar group.
- \* Clear intent to share knowledge and experience through speaking engagements or authorship of articles related to biomedical technology management.
- \* A leadership role in special projects or studies that made a difference to the management of medical device technology in a health care delivery setting.
- \* Improvement to a biomedical technology challenge or problem in a patient care environment.

The award includes a \$1,500 check and a plaque to be presented at AAMI's Annual Conference. The deadline for receipt of nominations is March 15, 2010. For more information, contact Susan DeCoursey at 703-525-4890, ext. 232 or e-mail [sdecourcey@aami.org](mailto:sdecourcey@aami.org).
