

Batten Disease Support and Research Association 2010 Request for Proposals

Grantor: Batten Disease Support and Research Association

Closes: 5/15/2010

Maximum: \$0.00

Batten Disease Support and Research Association 2010 Request for Proposals

The 2010 Request for Proposal is now available. Submitted proposals must be postmarked no later than 11:59PM , May 15, 2010. Emailed proposals will NOT be accepted. Inquiries may be directed to Lance W. Johnston, Executive Director, BDSRA, at 1-800-448-4570 or 740-927-4298. Email address: bdsr1@bdsra.org.

The Batten Disease Support and Research Association (BDSRA) is pleased to announce that limited funds are available to promote research and/or assist in a viable research project/s primarily for, but not limited to, development of novel therapeutic approaches to treatment for Neuronal Ceroid Lipofuscinosis, including the identification of bioactive compounds and characterization of cell-based therapeutic strategies, neuroimaging, proteomic and genomic approaches, and development of treatments that will alleviate the symptoms of Batten Disease. Also approaches exploring the neurobiology of NCL disease and determining the molecular pathogenesis in the CNS and further understanding the cell biology of the NCL proteins/enzymes. Proposals will be received for all forms of NCL with emphasis on CLN1, CLN2, and CLN3.

Multiyear proposals are generally discouraged unless there are extenuating circumstances or the study/project requires it.

BDSRA is including in its 2010 Request for Proposals, the establishment of a new postdoctoral fellowship. Proposals must include the percentage of time the candidate will expend on the project. Proposal must also include letter from established scientist or lab in which the posdtdoc will be working acknowledging the applicants position. Note: Funding for second and/or third year will be predicated on review of previous work and likelihood of achieving goals. Funding will not accompany if individual changes institution or lab unless preauthorized by BDSRA.

All grant award(s) must be used to cover direct costs of the project/ investigation and may not be used for indirect or overhead costs. All awards, including Postdoctoral fellowship, will be paid in six (6) month increments based on report submitted for review.

In the event of any changes, such changes will be announced on the BDSRA website - <http://www.bdsra.org>.
