

## National Multiple Sclerosis Society Training Grants and Fellowships

**Grantor:** National Multiple Sclerosis Society

**Closes:** 8/13/2010

**Maximum:** \$0.00

### National Multiple Sclerosis Society Training Grants and Fellowships

The National MS Society seeks to attract and train promising young investigators and doctors into the field of MS by supporting the training of postdoctoral fellows in studies related to MS. The Society supports fundamental as well as applied studies, non-clinical or clinical in nature, including projects in patient management, care and rehabilitation.

The Society offers postdoctoral fellowship grants to unusually promising recipients of M.D., Ph.D. or equivalent degrees when it appears that the program of training to be supported by the grant will enhance the likelihood that the trainee will perform meaningful and independent research relevant to MS in the future, and obtain a suitable position which will enable them to do so.

Before submitting a proposal for fellowship support, the investigator must consult the Research & Clinical Programs Department by phone or email to determine whether the research plan is appropriate and relevant to the mission of the Society.

**Deadline:** August 13
