

## **American Society of Radiologic Technologists Education and Research Foundation Professional Research Grant Award Program**

**Grantor:** American Society of Radiologic Technologists Education and Research Foundation

**Closes:** 8/15/2010

**Maximum:** \$10,000.00

American Society of Radiologic Technologists Education and Research Foundation Professional Research Grant Award Program

The Professional Research Grant Award Program awards up to \$10,000 to registered medical imaging and radiation therapy professionals. The award is for initiating a research project related to the radiologic sciences for completion of a dissertation or in affiliation with an academic or clinical institution.

The Foundation considers applications twice yearly on Feb. 15 and Aug. 15.

Applications must be submitted by the principal investigator (PI), who must be a current ASRT member.

The PI must be registered with the American Registry of Radiologic Technologists (ARRT) or equivalent, or hold an unrestricted state license.

Projects may be proposed for a period not to exceed two years. If a two-year request is made, plans for the entire project period must be stated in the proposal.

Only areas of research related to radiation therapy, dosimetry or medical imaging, including nuclear medicine and sonography, are eligible for research awards. Proposals related to education and administration will also be considered.

All inquiries regarding the program and application process should be addressed to:

ASRT Education and Research Foundation
