

## Orthopaedic Research and Education Foundation/Musculoskeletal Transplant Foundation Research Grant

**Grantor:** Orthopaedic Research and Education Foundation

**Closes:** 9/15/2010

**Maximum:** \$100,000.00

Orthopaedic Research and Education Foundation/Musculoskeletal Transplant Foundation Research Grant

Applications due September 15, 2010

This grant provides seed money and start-up funding for a new investigator doing research in the topic areas of stem cells and orthopaedic allograft research. One grant totaling up to \$100,000 for a maximum time period of two years is available, conditional upon annual review, thanks to generous support from the Musculoskeletal Transplant Foundation. Clinical relevance must be clearly noted in the abstract and specific aims, and be explicit in both the project title and the study design. The principal investigator or the co-principal investigator must be an orthopaedic surgeon. PhDs and DVMs are eligible if they are affiliated with an orthopaedic department and working with an orthopaedic surgeon who is the principal investigator or co-principal investigator. Funds may not be used for salary. Applications for projects of a clinical or basic science nature will be accepted.
