

American Society for Clinical Pharmacology and Therapeutics Leon I. Goldberg Young Investigator Award

Grantor: American Society for Clinical Pharmacology and Therapeutics

Closes: 9/24/2010

Maximum: \$1,000.00

American Society for Clinical Pharmacology and Therapeutics Leon I. Goldberg Young Investigator Award

The Leon I. Goldberg Young Investigator Award was established in 1986 to honor a young scientist for accomplishments in the field of clinical pharmacology achieved early in his/her career.

The goal of the Leon I. Goldberg Young Investigator Award is to encourage and recognize young scientists active in the field of clinical pharmacology.

Eligibility

There are no restrictions concerning the scientific field in which nominees have earned their doctoral degrees. Nominees must be no more than 41 years of age as of March 1 of the year in which the award is presented. Although it is encouraged, a nominee need not be a member of the Society.

Prize and Presentation

The Leon I. Goldberg Young Investigator Award is presented at the ASCPT Annual Meeting. The recipient will deliver a lecture on his/her work. In addition, the recipient of the award will receive a plaque and a \$1,000 honorarium. Travel expenses, hotel expenses and meeting registration are reimbursed by the Society.

Each year, the American Society for Clinical Pharmacology and Therapeutics Scientific Awards Program seeks to recognize outstanding science in clinical pharmacology. ASCPT Awards span the continuum of clinical pharmacology and recognize every turning point in the career path from young investigator to seasoned scientist.

The deadline to submit a nomination is September 24, 2010 at 4:00pm ET.

We encourage all members to participate in this important process. If you have any questions about any of the awards or nomination procedures, please contact meetings@ascpt.org.
