

Call for Applications: 2012 National Science Foundation Research Experiences for Undergraduates Program in the School of Chemistry and Biochemistry at Georgia Tech

Grantor: School of Chemistry and Biochemistry at Georgia Tech

Closes: 2/15/2012

Maximum: \$5,000.00

Call for Applications: 2012 National Science Foundation Research Experiences for Undergraduates Program in the School of Chemistry and Biochemistry at Georgia Tech

Chemistry and Biochemistry undergraduate majors are invited to apply for a ten-week (May 21- July 27, 2012) research program sponsored by the National Science Foundation (NSF-REU) and 3M Corporation. Program participants will receive a stipend of \$5,000, a travel allowance, and housing.* Participants supported by NSF and 3M must be US citizens or permanent residents of the US.

Each research student carries out a research project under the direction of a faculty member in School of Chemistry and Biochemistry at Georgia Tech. Projects are available in analytical, biological, inorganic, organic, physical, and polymer chemistry. Contributions by undergraduate participants often result in publication of papers in the peer-reviewed literature with the student listed as an author.

*Pending funding from the National Science Foundation and 3M Corporation

Deadline for applications is Feb. 15, 2012. But early submissions are encouraged!

Notification of awards will be made by March 30, 2012.
