

American Association for Clinical Chemistry Van Slyke Foundation Research Grants

Grantor: American Association for Clinical Chemistry Van Slyke Foundation

Closes: 3/15/2012

Maximum: \$0.00

American Association for Clinical Chemistry Van Slyke Foundation Research Grants

The Van Slyke Foundation provides a small start-up grant targeted to young investigators who need limited research funds to explore new ideas in areas where funds are not normally available, the Foundation's general research grant is funded by gifts from individual donors.

Applications are due by March 15, for projects starting after June 1 of the same year.

How to Apply

Complete the Application for AACC Van Slyke Foundation Research Grants.

Applications will be evaluated using the following scientific criteria:

Originality

Scope

Scientific significance;

Soundness of research plan;

Degree of achievability;

Potential for the project to lead to further exploration beyond grant period; and

Transferability of research findings to actual practice.

Administrative criteria used will include:

Degree to which the research proposal is critical to the career of the applicant;

Degree to which AACC funding is critical to the start of the project;

Adequacy of the facility proposed; and

Satisfactory budget.

Preference for research grants will be given to young investigators.

Submit one electronic copy of your application to Michele Horwitz.
