

Student Osteopathic Medical Association International Medical Relief/Medical Missions Scholarship

Grantor: Student Osteopathic Medical Association

Closes: 3/26/2012

Maximum: \$250.00

Student Osteopathic Medical Association International Medical Relief/Medical Missions Scholarship

We are excited to introduce a new scholarship for this spring designed to meet the needs of those students who participate in international medical missions and relief trips. It is specifically designed for those trips of a short-term basis that do not meet the requirements for the general scholarship. Each student selected for the scholarship will receive up to \$250 to cover transportation, room, board and essential expenses related to an international medicine missions/relief trip. The completion of this trip may take place during any part of the four years of study. This scholarship comes at the request of so many of you who take international relief trips each year and are looking for another source of financial support.

Requirements for consideration:

Membership in National SOMA.

Demonstrate a strong interest in international medicine.

The trip does not have a length requirement but must take place in a country outside of the United States.

Once chosen for the scholarship, the site may not be changed without verbal and/or written consent of the IHP Director.

The applications will be accepted on a rolling basis and awards will be distributed each year at the annual spring SOMA convention in Washington D.C. Awards may be applied to rotations that have previously occurred or are yet to occur as long as the applicant is still a student at an accredited college of osteopathic medicine at the time the scholarship is awarded. Scholarships will be awarded to the extent that funding permits.

A student who wishes to apply must complete and submit an application form and verification form (for the general scholarship only) to National SOMA. Recipients will be selected at the discretion of the scholarship selection committee. Any questions should be brought to your local SOMA International Health representative or to the National Health Programs Director.

Deadline: March 26, 2012
