

American Society for Radiation Oncology Residents/Fellows in Radiation Oncology Research Seed Grant

Grantor: American Society for Radiation Oncology

Closes: 3/29/2012

Maximum: \$25,000.00

American Society for Radiation Oncology Residents/Fellows in Radiation Oncology Research Seed Grant

This grant is designed to support residents or fellows who are planning a career focusing primarily on basic science or clinical research. It is designed for the exceptional trainee and implies dedication to a career in research.

You are eligible if:

You show a commitment to a career that focuses primarily on radiation oncology sciences.

Your institution has a well-established research and clinical career development program and qualified faculty in radiation oncology sciences to serve as mentors.

You have identified a mentor with extensive research experience to support your project. Either the mentor or co-mentor should be an ASTRO member.

Three grants of up to \$25,000 each will be awarded for one-year projects. No salary support will be provided. The recipients are expected to devote 75 percent of their professional effort toward the goals of this award.

You should fill out the award application and requirements, which will be available in winter 2011/2012.

Applications must be received by ASTRO by March 29, 2012. If the deadline falls on a weekend or holiday, applications are due the next business day.

The start date for the next round of Seed Grants will be July 1, 2012.
