

Call for Nominations: Tetrahedron Prize for Creativity in Organic Chemistry

Grantor: Elsevier

Closes: 3/31/2012

Maximum: \$10,000.00

Call for Nominations: Tetrahedron Prize for Creativity in Organic Chemistry

Submission of Nominations: Deadline: 31st March, 2012.

Nominations should consist of a covering letter summarising the achievements of the individual (max. 1,500 words), a brief biographical sketch of the nominee, a list of no more than 25 publications and up to two seconding letters of support.

Apart from the reservations made above, nominations are welcomed for candidates of all ages and nationalities for the award of the Tetrahedron Prize. The Prize jury is made up of the Executive Board of Editors of Tetrahedron Publications. Members of the Executive Board may not be candidates, nor make nominations. Consulting Editors, who do not have an executive function and do not vote for the Prize, are eligible candidates.

For further information on the Tetrahedron Prize, please contact:

Diddel Francissen, Executive Publisher, Elsevier, Chemistry.

ABOUT THE TETRAHEDRON PRIZE

The Tetrahedron Prize for Creativity in Organic Chemistry was established in 1980 by the Executive Board of Editors and the Publisher of Tetrahedron Publications. It is intended to honour the memory of the founding co-Chairmen of these publications, Professor Sir Robert Robinson and Professor Robert Burns Woodward.

The Tetrahedron Prize is awarded on an annual basis for creativity in Organic Chemistry. The prize consists of a gold medal, a citation, and a monetary award of US \$10,000. It is awarded to an Organic Chemist who has made significant original contributions to the field, in its broadest sense. On some occasions, the Prize may be awarded jointly to two winners in which case two medals are presented. The winner is expected to write an appropriate article for Tetrahedron or Bioorganic & Medicinal Chemistry as part of a Symposium-in-Print compiled in their honour.
