The American Academy of Child and Adolescent Psychiatry (AACAP) is pleased to announce the Life Members Mentorship Grants for Medical Students (MGM).

The MGM provides the opportunity for seven medical students to attend the AACAP Annual Meeting in San Francisco, CA, October 23 - October 28, 2012 and receive an introduction into the field of child and adolescent psychiatry through the AACAP Mentorship Program. MGM recipients also participate in programs sponsored by the Life Members, which is a group of the oldest and most distinguished members of AACAP, all having been members for at least 30 years. Many of those in this group served as AACAP leadership and also pioneered many of the significant discoveries and developments in the field of child and adolescent psychiatry. Partnered with the Mentorship Program, this program provides participants with networking opportunities, exposure to varying specialties, and interaction with Life Members.
